RECOMMENDATION:

The Commission approve the proposed budget issues for submission in the FY2021 budget proposal.

DISCUSSION:

As part of the state budget process, agencies may request funding to address issues that impact the agency or the criminal justice system. Each budget cycle ACJC submits a set of budget issues to the Executive for consideration as part of their initial budget. The attached page summarizes this request. The Commission may consider additional issues for submission in the attached FY2021 budget.

FY 2021 Budget Issues

State Aid to Indigent Defense – Fill the Gap

In 1999 the Arizona enacted Fill the Gap legislation in order to provide additional resources to county attorneys, indigent defense agencies, and superior courts to assist in their efforts to reduce case processing times throughout the state. Since FY 2012, the state legislature has redirected the revenue in the State Aid to County Indigent Defense Fund to the Arizona Attorney General's Office and/or the Arizona Department of Public Safety.

This loss of state funds has negatively impacted county programs and their ability to fund case processing and have made it nearly impossible for counties to meet the Arizona Supreme Court mandated timeframe for processing cases. ACJC is requesting authority to allocate available funds to county programs as intended by law.

Implementation of New RICO Reporting Requirements

Two new laws enacted during the 2018 legislative session greatly expanded the reporting requirements for agencies that deal with civil asset forfeiture activities and created an entirely new report dealing with forfeiture orders. Both reports are mandated to be in an electronic format and reported on a quarterly basis. It is ACJC's understanding that that intent of this new requirement for an electronic format is so that greater transparency is provided for RICO expense information for the agencies that participate, and so that the expense information can be accessed and searched by the legislature and state agencies that choose to do so.

As the state agency statutorily mandated to collect and distribute the comprehensive state-wide RICO reports, ACJC is requesting \$100,000 for FY 2019 in order to hire a web developer/database programmer to create the necessary web interface and database architecture to handle the new reporting requirements. These costs break down as follows: \$30,000 for the expanded expense reporting requirements and \$70,000 for the new forfeiture order reporting requirements.

ACJC does not have an agency budget that can absorb these costs from existing funding sources. In addition, ACJC is not currently able to determine the ongoing administrative costs to house and maintain these new systems as they grow year over year with the large amounts of new data being added. These costs may also need to be addressed in future budget requests to the Executive and Legislature.

State General Fund Support for Statewide Victim Notification System

As part of the 2018 legislative session, the Commission introduces and was successful in enacting HB 2249, which undertook the first comprehensive re-write of the State's orders of protection/injunction against harassment process. Language included in the enacted legislation, allows for the establishment of a state-wide victim notification system to provide plaintiffs real-time information on their case.

ACJC is seeking federal grant funds to allow for the establishment of a state-wide victim notification system. Grant funds can be used for the initial purchase and integration of a system, but will not allow for continued yearly upkeep and maintenance costs associated with the the operation of such a system. ACJC is seeking an appropriation from the general fund to support the yearly maintenance cost of a state-wide victim notification system that will allow for system-wide efficiency savings and enhances access for victims to services and information.

Continued Decline in Criminal Justice Enhancement Fund Revenue

The Commission is increasingly concerned with the continued decline in revenues into the Criminal Justice Enhancement Fund that is used to fund a wide range of critical criminal justice activities in Arizona. From FY2008 to FY2018, CJEF revenue has declined 29.5 percent from \$47.8 million to 33.7 million. This decline in revenue has resulted in agencies like the Arizona Peace Officers Standards and Training Board and the Arizona Prosecuting Attorneys' Advisory Council (both of which are fully funded by CJEF) having to significantly reduce services to their stakeholder. In addition, declining revenue into CJEF impacts other critical criminal justice programs like county jail enhancement funding, crime lab operations, drug treatment programs, programs targeted at juvenile offenders, and victim services.

The Commission established a working group to look at this issue which was chaired by Chief Sharp from the Oro Valley Police Department. The working group consisted of members from the Department of Public Safety, AZ POST, Arizona Prosecuting Attorneys Advisory Council, ACJC, and Yavapai County Attorney, Sheila Polk. This group met over the past 18 months to gain a better understanding of what was driving the continued decline in CJEF revenue and to lay out some potential funding solutions to help fill the approximately \$15 million in lost funding since the 2008 fiscal year. As a result of the activities of the work group, the Commission at its July 18, 2018 meeting approved pursuing several possible funding fixes during the 2019 legislative session. These include:

- 1. The Commission develop a budget issue/request to the Executive to earmark a portion of new revenue derived from sales tax on internet sales to go towards criminal justice activity funding in general and the CJEF specifically.**
 - As this is new revenue for the state it presents the best possibility for providing new funding for criminal justice activities. The recent Supreme Court ruling opens this as a new potential \$200 million per year revenue stream for the state.
- 2. Additional fees on either cell phone sales or monthly bills** (nexus now that the legislature has passed a ban on texting and driving for new drivers)
 - Based on national calculations, 95% of people over the age of 18 own a cell phone. In Arizona, this equates to approximately 5 million cell phones. An additional fee/surcharge of \$.10/line/month could generate approximately \$6 million in additional revenue per year. An additional fee/surcharge of \$.15/line/month could generate approximately \$9 million in additional revenue per year.
- 3. Additional fees on either car or homeowners insurance policies** (theft claims involve the criminal justice system)
 - In 2017 there were approximately 5.1 million insured vehicles in Arizona. An additional .50 surcharge on vehicle insurance policies could generate approximately \$5 million in additional revenue per year (much like the Auto Theft Authority is funded)
 - In 2017 there were approximately 2.9 million housing units in Arizona. An additional \$2 surcharge per homeowners insurance or renters policy per year could generate approximately \$6 million in additional revenue per year.
